Blood Poisoned After Typhoid Fever

"C. L. Hood & Co., Lowell, Mass." "Dear Sirs: Twenty-five years ago I had a bilious fever, and later it turned into typhoid fever, and for five weeks I lay like one dead, but at last I pulled through and got up around. I soon discovered on my left leg just above the knee a small brown spot about as big as a three-cent piece, which puffed up but did not hurt me or feel sore. I did not pay any attention to it until two years after, when it commenced to spread and have the appearance of a ring worm. It itched and burned and I commenced doctoring, but to no avail. I

Got Only Momentary Relief, And sometimes not even that. I could not sleep nights, and on account of the itching I scratched the spot until the blood would run. In hot weather my elbows and all my joints were just the same, and what I have suffered I cannot describe with a pen. Last February I tried an herb for the blood and it broke out in the worst form of a rash all over my body. I began my scratching, and scales would fall off. The sores continued to discharge and I longed to die. Finally my husband bought a bottle of Hood's Sarsaparilla and I had not taken more than half a bottle before I began to change for the better. I have had four bottles.

Now I Am All Well but two little spots on my leg. I can now sleep and eat well and work all the time. I am 54 years old, and the mother of eleven children, and think I can do as much as any one my age. My son has also taken Hood's Sarsaparilla for dyspepsia, and has been greatly benefited by it. I feel very grateful for the benefit I received from Hood's Sarsaparilla. Mrs. Phebe L. Hall, Galva, Kansas.
